

# Connect Smart Farms

**faster.  
fairer.  
flawless.**

## Crop Storage Monitoring kit

This LoRaWAN kit provides farmers with real-time data that measures humidity, temperature and CO<sub>2</sub> in their crop storage facilities.

### What do I get in my free kit?

**Rugged sensor with remote monitoring facility**

Provides accurate, real-time humidity, temperature and CO<sub>2</sub> data.

**24 Months data services**

Includes LoRaWAN network, data storage, and data visualisation with user login.

### Benefits?

- ✔ Smart real-time temperature metering
- ✔ Prevents lost crops through fluctuating temperatures
- ✔ Ability to set alarms on temperature and humidity parameters
